Run report: EXP-ICPERF-b2f2d0

This report records what ran and what it measured. It is generated by tools/runbook.py from the session journal. It states no verdict, support, weakening or significance; the evidence review does that.

- Runbook: experiments/EXP-ICPERF-b2f2d0/runbook.yaml (sha256 940b980a0c0c0f1546f03f69ff484fb6518f14307dac5dc35196da4cc6c57c5f)

- Commit: 39d6edf631daa850e6a95b867fbcece6e37cc537; tracked files dirty: True
- Started 2026-10-21T14:26:37.974634Z, finished 2026-10-21T14:26:55.640260Z; status stopped

Purpose

One deterministic trial draws 64 geometric counts at success probability 1/50 from seed 20261017 and records the sample moments. Observations only. Host latency is not an input.

Steps

step	status	what it does
S01-probe-python	passed	Writes the CPython major version to environment.json in this step output directory.
S02-trials	failed	Runs run.py then check.py for the single frozen trial in its own write-once directory.

Units

0 valid of 1; invalid: ['geometric-probe-sample']

trial	run	receipt status	valid
geometric-probe-sample	RUN-ICPERF-b09be8	invalid_output	False

Metrics

Each value is computed by tools/runbook.py from the recorded outputs named in its source. Labels say whether a value was measured or derived from measured values.

metric	label	unit	n	values
cv_in_band	measured	fraction	0	fraction_true=null
sample_sum	measured	count	0	max=null, min=null

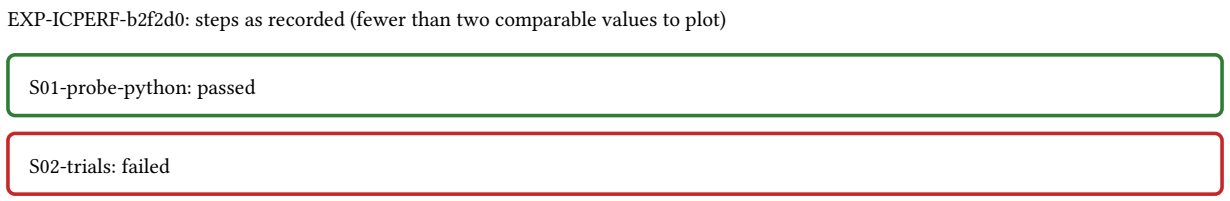

Figure 1: Recorded values from this session only; no new computation.

Validity, proofs and formal obligations

- Execution validity: incomplete
- Control validity: not_applicable
- Inferential validity: not_assessed: review-evidence and the Coordinator decide
- Execution proofs: {"chain": "incomplete: docs/execution-proof-chain.md milestones are open", "failed_units": 0, "unavailable_units": 0, "verified_units": 0}
- Audit: not audited: tools/runbook.py audit (audit-runs skill)

Where it stopped

S02-trials: implementation_error: supervisor exit 3 (trials remain or need reconciliation); see experiments/EXP-ICPERF-b2f2d0/runbook-sessions/RBS-ICPERF-c4a91e/steps/S02-trials.attempt-1.supervisor.stderr

A stop is an operational fact. It is not evidence about the hypothesis.
