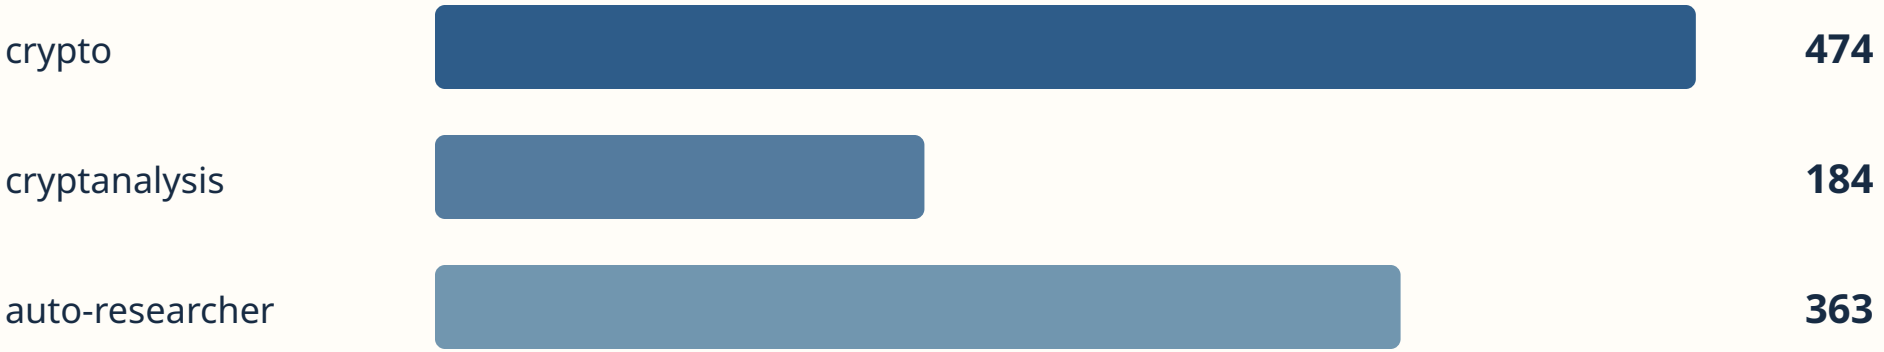
Lean source-tree scope at frozen Git commits

Tracked .lean files; file counts are not theorem or claim coverage.

All tracked Lean files by repository



Cryptanalysis: membership in the 97-source corpus receipt

Partition of 184 tracked Lean files at d3673ee; membership is not a validity verdict.

The 87 files outside this receipt may have other gates; inspect each claim and its source.

The receipt binds 90 unchanged archive files and seven fresh native files. It leaves exhaustive theorem audit, semantic fidelity, and historical execution open.

Sources: crypto 192e5eec; cryptanalysis d3673ee; auto researcher 7a40243d.

Exact trees, file paths, Git blob IDs, and receipt partition are in manifest.json and inventories.
